### Standard Detail

**Built to withstand the rough and tumble of the school environment, Thor Extra is a proven semi framed cubicle system guaranteed to meet the grade in any challenging environment.**

Strong aluminium profiles are matched with durable compact grade laminates and tamper resistant fixings with three hinges per door to ensure the maximum resistance against either wear and tear or vandalism. Thor Extra has been designed and engineered to last. Specify index compliant colour schemes from our range of child friendly fresh and bright solid grade laminates. Thor Extra is also available in a shower cubicle configuration.

Thor Extra can achieve a full height appearance in certain applications and with its pilaster feet, creates a sophisticated look for a school environment.
